Summary

Hi, I'm Tuong. I have over 3 years of experience working with the Framework/Library of JavaScript (ReactJS, VueJS). I'm considered a good team player because I would like to help others and tend to work well within a group. From that, I will contribute to the development of the company.

In the future, I would like to learn about Front-End more and become a Full-Stack developer in the long term. My focus is on trying to learn as much as possible and doing my best in order to accomplish assigned tasks, supporting my team members, researching, and applying new technologies effectively, which gives me the motivation to fulfill my potential.

Technical Skill

Languages
Javascript, Typescript
HTML, CSS
